**Robert  
Boileau inc.**

***Since 1981***

Established in Quebec since 1981, we have been working in the arena and curling club businesses since 1986. From its first day, the company has benefited from the precious expertise of its founder. Today, the involvement and experience of our employees enable us to offer products and services specifically adapted to each customer.

Robert Boileau Inc.'s mission is to be the leader in the arena line of activity in Quebec. Our main objective is to satisfy our customers, within our targeted market . Attentive to our clients, we aim at offering them solutions through renown quality products and unparalleled service.

Whether an arena manager, a mechanical foreman, an operator or a volunteer in a sporting league, the surfer will find a selection of products, services and information in our catalog pertaining to ice arena facilities.

As a distributor, our greatest accomplishment is to deserve our clientele's loyalty. In this optic, we do our best to put several measures of assistance forward. We offer telephone support, work shop repairs, and road service. Our over-the-counter parts service is fast, simple and courteous.

Chartered training is one aspect dear to our heart. As it is held at the customer's premises, we keep personal contact with the manager and his or her personnel, and remain aware of present and future requirements. Recognizing the ever growing needs in the territory we cover, we are always on the look-out for new opportunities, to offer profitable and original solutions to our valued clientele.

We are the exclusive distributor for these brands, since 1993.

# Paint

**Super White 3000 : 115.00 \$ + tx**

## Jet Ice Paints

Jet Ice manufactures a premium line of quality ice paints specifically designed and carefully formulated for reliable use in the ice making industry. We strive to offer the best ice paint over all and have been doing so for almost 30 years!

As a leader in the industry, Jet Ice, has developed the best known product that has revolutionized the technology of ice paint and how it is applied.

This ice paint is exactly what the professional ice maker requires to make the ice look perfect.

### Super White 3000

Our most brilliant and intense white ice paint will have your rink stand out brighter than all the rest. With consistent improvements over the years, our white ice paint beats out the competition hands down.

**1000 Colours available**

**Blue or red for lines: 45.00 \$ + tx**  
**Goal Crease: 55.00\$ + tx**  
**Regular Pantone code colour: 59.00\$**

**WE BRING ICE TO LIFE®**

## Digital In-Ice Logos

Jet Ice is the leader of in-ice logo technology offering a full line of print media specifically selected for the professional ice maker. We use state-of-the-art large format digital printers to provide you superior print quality.

## Jet Ice Textile

Reusable fabric with excellent water transfer properties for ease of installation, fabric colour blends well into ice, excellent image quality.

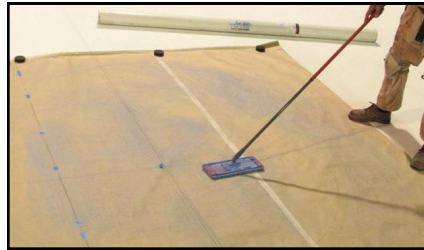

## Stenciled Logos

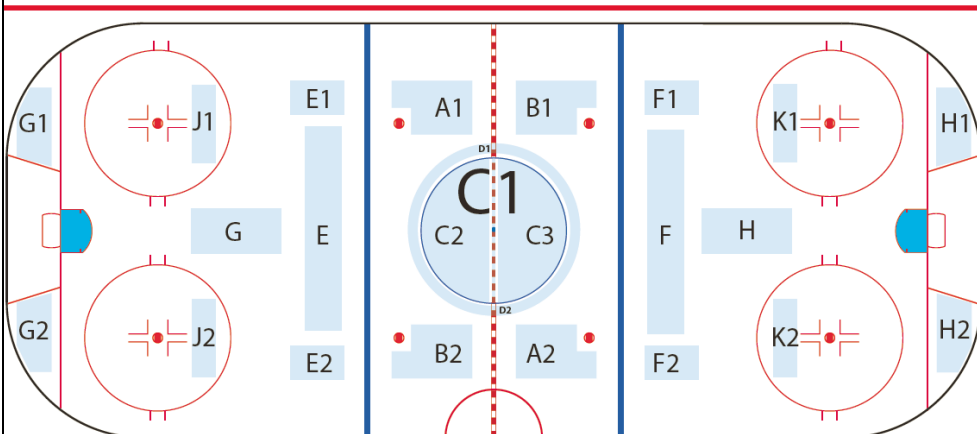

For the most vibrant and cost effective logos, choose paper stencils from Jet Ice. Our logo stencils are completely reusable, shipped in sturdy tubes for long-term storage and are complemented by our selection of over 1,000 colours of paint utilizing the Pantone Matching System.

These stencils are created as guides to aid in the painting of specified logos on the ice surface. Standard stencils are produced on craft paper.

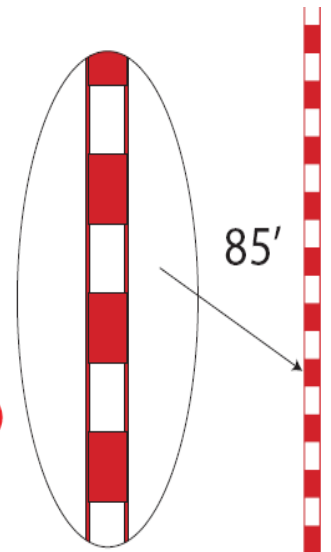

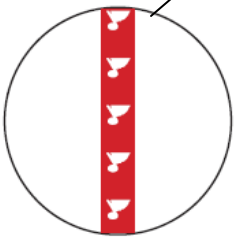

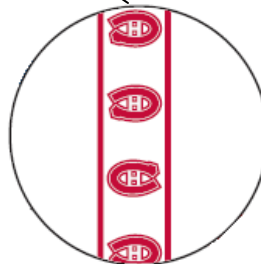

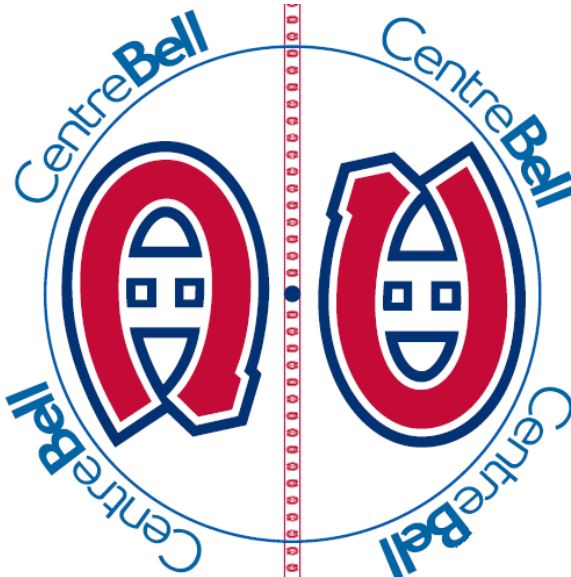

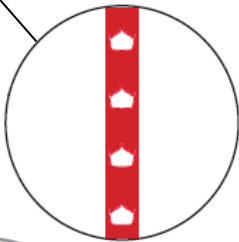

All stencils are supplied with chalk and installation instructions

**TEMPERED GLASS ORDER CONFIRMATION**

**Name of the arena:** \_\_\_\_\_  
**Contact:** \_\_\_\_\_  
**Shipping address:** \_\_\_\_\_  
 \_\_\_\_\_  
 \_\_\_\_\_

**tél.:** \_\_\_\_\_  
**e-mail:** \_\_\_\_\_  
**Cell:** \_\_\_\_\_

Our glass shields are made of clear tempered glass of either 1/2" or 5/8" thickness.  
 It is possible to pierce a 4" diameter acoustic hole in the tempered glass. Please refer to the schematic below and indicate the distance between the centre of the hole and the base of the tempered glass (**a**) and the distance between the centre of the hole and the side of the tempered glass (**b**).

A custom wooden crate will be used for shipping.

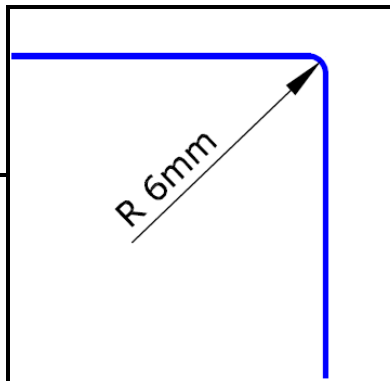

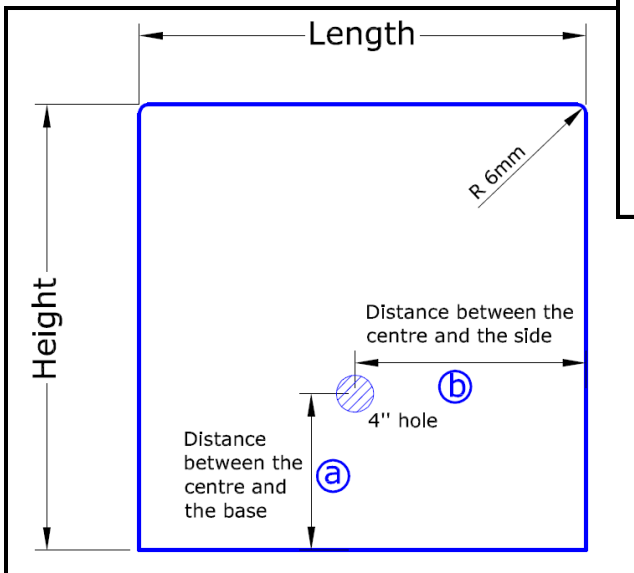

An energy surcharge will automatically be added to your invoice. This amount is determined by the factory and varies on a trimestrial basis.

Please fill the form below; indicate the quantities and measurements of the tempered glass required. All the information you provide will be used to cut the tempered glass to size and will be used as a reference in case of disparity with the received goods.

Purchase order #: \_\_\_\_\_

Signature: \_\_\_\_\_

Date: \_\_\_\_\_

Our tempered glass includes a 6mm radius at the two upper corners and is polished on all four sides.

Complies to the Canadian norm *CGSB-12.1-M*  
 And American norm *ANSI Z97.1*

# Rink Blaster

Both scrapper and shovel

- ◆ EASY
- ◆ FAST
- ◆ SAFE

**NEW**

**The Rink Blaster straight model** was designed for rinks where the Ice Resurfacer doors are located in a straight section of the dasher boards. The scrapper side of the Rink Blaster has been precision cut to a perfect straight edge to fit tightly against the ice rinks threshold. This allows for the user to not only pull the snow to the ice resurfacer doors, but to cleanly lift the snow up the threshold leaving a perfectly smooth and clean sheet of ice with out ever entering the ice surface.

Available in 2 sizes:

SCRAPER 30" RINK BLASTER MINI, STAINLESS STEEL,  
YELLOW

RINKBLAST-30J

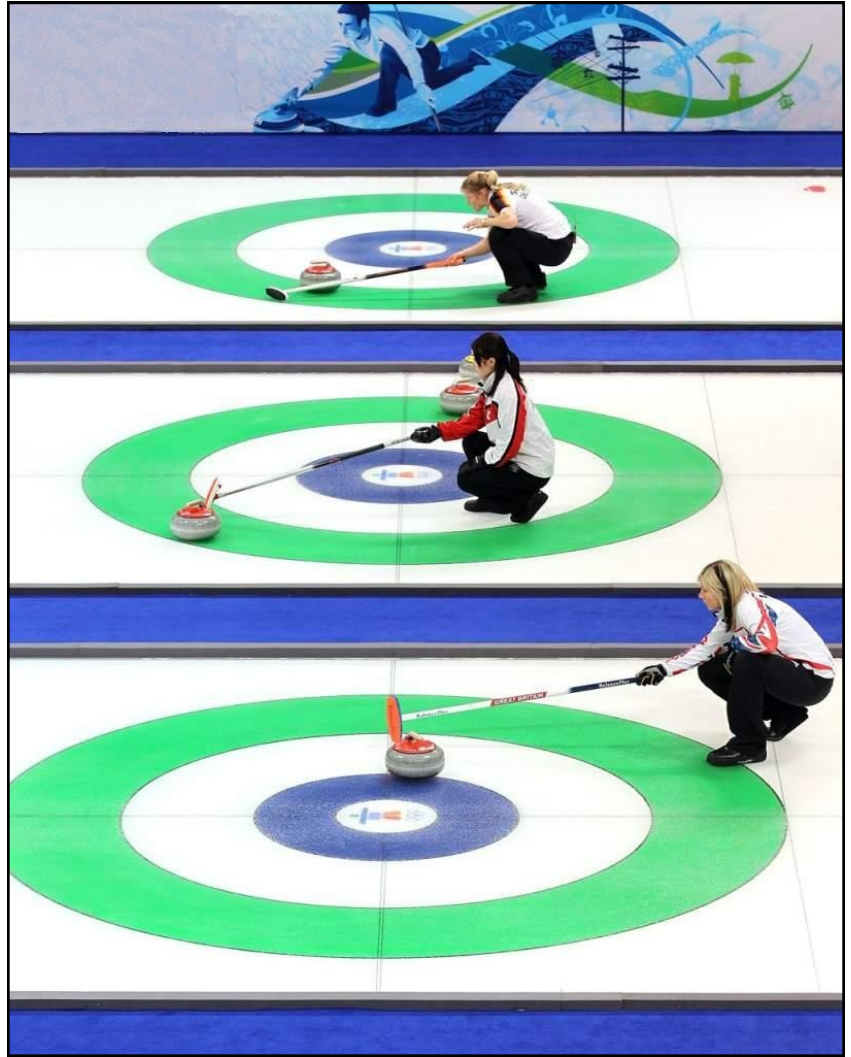

SCRAPER 36" RINK BLASTER STRAIGHT, BLUE

RINKBLAST-36B
