# CLASSIK<sup>P</sup> 812

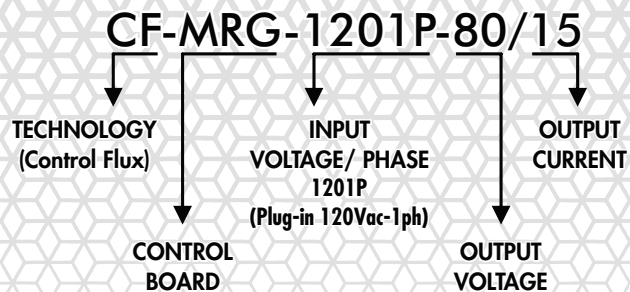

## OPTIMAL *Seasonal* CHARGE

### MAINTENANCE CHARGER FOR RESURFACERS

Perfect for maintaining optimal battery voltage during off season to prevent sulphation and prolong battery life.

### MODEL IN DETAIL

### CABINET DIMENSIONS

(L x W x H in inches)

8.86 x 9.53 x 8.58

### WARRANTY

1 year full

### FEATURES

- ▶ Automatic maintenance
- ▶ Low/highvoltage detection
- ▶ Overvoltage protection
- ▶ Intelligent protection system
- ▶ Automatic data saving and restart
- ▶ CSA and UL certified

[arenazone.com](http://arenazone.com)  
[info@arenazone.com](mailto:info@arenazone.com)

## Opportunity Charger LOGIK MHF 68

### CHARGER FEATURES

#### **Exclusive charge profiles such as:**

- 6/8h charge, smart pulse and ionic
- 240/480/600Vac, 3 phase model
- Statistics of the 300 last charge models
- Superior energy efficiency
- Real time clock and calendar
- Alphanumeric display
- Programmable features such as:
  - . Modulated equalize cycles
  - . Start/stop window
  - . Gassing point voltage

### OPTIONS

- Free-standing or wall mounted
- Wireless communication (with battery module)
- Temperature compensation (with battery module)
- Automatic watering management
- Fleet management

### OPPORTUNITY CHARGING AS IT'S BEST

LOGIK 68 chargers offer maximum performance with exceptional energy efficiency, greatly diminishing it's operating cost.

The main benefit is the possibility to use them in conventional and opportunity charge applications with the same electrical efficiency.

**To purchase Zamboni parts, please dial 514-333-8420, our toll free number 1-877-333-8420 option 2 or please send us your Purchase Order form to the following email address; [pieces@arenazone.com](mailto:pieces@arenazone.com)**

## **-Level-Ice™**

**Skaters will love the hard, level ice surface**

**Simple to install. Simple to use.**

**Lets the operator focus on driving.**

The Level-Ice Laser Leveling System will automatically control the cutting blade of the conditioner to achieve an accurate, level ice surface. The system can be installed on all ice resurfacing machines.

### **Level-Ice will:**

- Provide consistent level ice
- Reduce resurfacing cut to save paint lines
- Reduce wear and tear on your ice resurfacer
- Reduce amount of snow
- Eliminate operator error
- Reduce operating costs
- Reduce energy usage
- Reduce amount of flood water use
- Reduce run time on your compressor
- Extend blade life by approximately 50%
- Reduce maintenance time
- Free up ice time for rental

Level-Ice literally takes all the guess work out of producing a perfectly level sheet of ice. The laser controlled ice leveling system provides accurate reference point to within .5 mm. Using the most advanced receiver technology, the system controls the cutting blade of the conditioner to give your ice a perfectly level surface after every flood.

**Level Ice. Every time.**
