ORDER CONFIRMATION FOR GLASS SHIELDING

Arena name: _____
 Contact: _____
 Delivery address: _____

Tel: _____
 E-mail: _____
 Cell: _____

Our quote #: _____

Our glass shieldings are made of clear tempered glass of 1/2" or 5/8" thickness of your choice. It is possible to drill the glass of an acoustic hole of 4" in diameter. Refer to the diagram and indicate the distance between the center of the hole and the base of the glass (a), and the distance between the center of the hole and the side of the glass (b).

Transportation of the glass is done in a custom-made wooden box.

An energy surcharge will be automatically added to your invoice, the amount of the surcharge is determined by the manufacturer and varies quarterly.

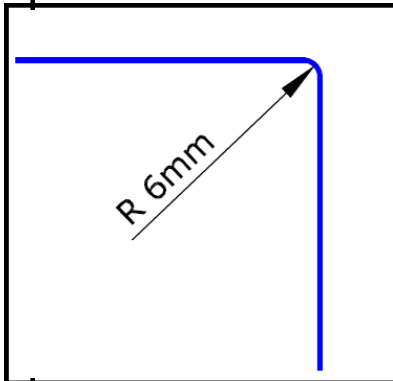

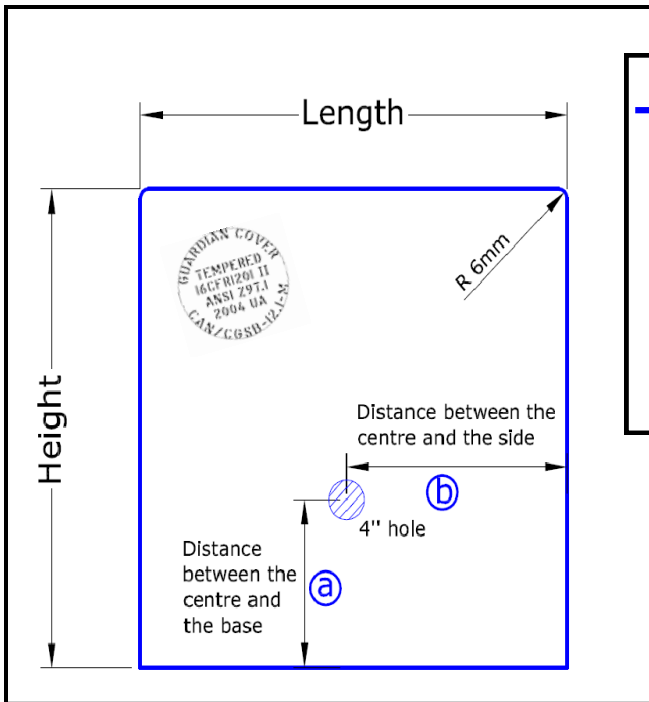

Please fill in the table with the quantities and measurements of your glass shieldings, you can refer to the diagram. This information provided by you, the customer, will be used for production and references in case of disparity with the goods received.

Please indicate your purchase order number and please sign, date in the appropriate spaces provided.

Purchase order #: _____

Signature: _____

Date: _____

Our glass includes 2 corners with a radius of 6mm, and is polished, flat and matte on all 4 sides.

Meets Canadian compliance **CGSB-12.1-M** and American compliance **ANSI Z97.1**
